

Maxwell Ihiaso

AI Trainer, Subject Matter Expert, and Product Engineer with 7+ years of experience evaluating technical content, building full-stack product features, APIs, internal tools, and AI-enabled workflows across SaaS, logistics, recruitment technology, and operations-heavy environments. Strong in rubric-based evaluation, critical analysis, written feedback, Python-backed workflows, TypeScript, JavaScript, React, Next.js, REST integrations, testing, and cross-functional delivery in remote teams.

Lagos, Nigeria +234 814 406 9305 ihiasomaxwellchukwuebuka@gmail.com [linkedin.com/in/maxwell-ihiaso](https://www.linkedin.com/in/maxwell-ihiaso)

PROFESSIONAL SUMMARY

AI trainer, evaluator, and senior product engineer with experience applying careful judgment to complex technical work, from rubric-based AI response evaluation and subject matter review to full-stack product delivery. I combine critical reading, precise written feedback, data-backed reasoning, engineering judgment, and clear documentation in remote environments that require autonomy, accuracy, and collaboration.

- AI model evaluation and training
- Rubric-based scoring
- Subject matter expert review
- Data annotation and QA
- Python and AI-enabled workflows
- Full-stack product development
- Clear written feedback
- Remote collaboration

EXPERIENCE

Product Engineer / AI Engineer

Infilla I United States (Remote)

Feb 2026 - Present

- Build AI-enabled product workflows combining user-facing interfaces, backend services, data handling, and model-assisted features.
- Evaluate AI outputs for relevance, coherence, factual consistency, and usefulness, translating findings into product improvements and clearer system behavior.
- Collaborate with product, design, and engineering stakeholders to interpret ambiguous requirements and improve AI-assisted user experiences.
- Document implementation decisions, edge cases, and evaluation observations so product and engineering teams can act on model behavior and user feedback.

AI Training Subject Matter Expert, Paper-Assisted Model Training

Turing I Remote (Part-time Contractor)

Feb 2026 - Present

- Evaluate, score, and compare AI-generated responses against rubrics for correctness, reasoning quality, instruction following, clarity, and factual accuracy.
- Create and review paper-assisted computer science training tasks that require careful reading of source material, precise constraints, and technically sound expected answers.
- Annotate model outputs, categorize quality issues, and provide clear written feedback to help improve model reliability across complex technical prompts.
- Maintain meticulous evaluation records while applying customer guidelines consistently across human-in-the-loop review workflows.

Software Engineer, progressing into Technical Leadership

Renda Africa I Lagos, Nigeria (Hybrid)

Jul 2023 - Feb 2026

Grew from hands-on product delivery into broader ownership across full-stack implementation, workflow automation, architecture direction, and engineering coordination.

- Owned product capabilities spanning delivery tracking, invoicing, merchant tooling, admin operations, and internal logistics workflows.
- Built backend and platform capabilities in Go and TypeScript, including operational APIs, internal tools, and workflow automation.
- Delivered real-time tracking experiences integrating event-driven updates, geolocation inputs, provider APIs, and fulfillment orchestration.
- Built and maintained a reusable rate-card engine supporting dynamic pricing across multiple business units and fulfillment scenarios.
- Gathered operational feedback, drove architecture discussions, documented implementation decisions, and mentored engineers.

Senior Full-Stack Engineer

Tidyex I Dallas, USA (Remote)

Nov 2022 - Jun 2025

- Built customer-facing and internal features for bookings, payments, dashboards, and operational workflows using Next.js, TypeScript, Strapi, and Payload CMS.
- Integrated CRM, finance, and inventory systems to automate customer and service operations.

Technical Solutions Specialist

Jobberman Nigeria | Lagos, Nigeria

Feb 2021 - Jun 2023

- Built internal tools, reporting systems, and workflow automation for recruitment operations using React, Zoho Creator, and integrated business logic.
- Delivered analytics and reporting solutions that improved visibility into pipeline performance and operational outcomes.
- Worked closely with internal users to understand workflow pain points and translate them into maintainable technical improvements.

Senior Frontend Engineer

CyberME Studio | Riyadh, Saudi Arabia (Remote Contract)

Aug 2022 - Nov 2022

- Led frontend modernization with React and TypeScript while improving modularity, performance, accessibility, and maintainability.
- Partnered with design and delivery stakeholders to implement polished product flows and reusable component patterns.

Software Engineer

Upwork | Remote

Feb 2019 - Feb 2022

- Delivered full-stack product features, APIs, automations, and integrations for clients across healthcare, e-commerce, and business operations.
- Built web applications and backend services using JavaScript, TypeScript, React, and Node.js from ambiguous requirements to production delivery.
- Joined client conversations to gather requirements, clarify feature gaps, ship quickly, and support systems after launch.

CORE SKILLS

Python

AI Model Evaluation

AI Training

Data Annotation

Rubric Scoring

Content Evaluation

Technical Writing

PostgreSQL

Linux

AI Workflows

Product Ownership

Node.js

TypeScript

JavaScript

Go

REST APIs

System Design

Docker

AWS

CI/CD

Git

Testing

Cypress

Playwright

React

Next.js

STRENGTHS

Attention to detail, rubric interpretation, critical reading, factual accuracy review, nuanced written feedback, full-stack ownership, documentation, cross-functional collaboration, and delivery in remote teams.

Targeting AI trainer and evaluator roles that value careful content review, high-volume annotation, human-in-the-loop AI improvement, structured feedback, research-oriented analysis, and independent remote work.

EDUCATION

M.Sc. Computer Science

University of Lagos, Lagos
Oct 2024

B.Eng. Materials and Metallurgical Engineering

Federal University of Technology, Owerri
Dec 2017
