PROFESSIONAL SUMMARY

Frontend-focused engineer who has grown from hands-on product development into broader technical ownership. At Renda, my scope expanded from shipping user-facing experiences and platform features to influencing architecture, coordinating delivery across teams, and mentoring engineers. I build responsive, maintainable interfaces with React, Next.js, TypeScript, HTML, and CSS, while staying comfortable with backend concepts, REST integrations, Python-based workflows, and the product decisions needed to ship reliable software in fast-moving environments.

- React and Next.js
- TypeScript, HTML, CSS
- Reusable UI components
- REST API integration
- Frontend architecture
- Responsive and accessible UI
- Playwright and Cypress
- Cross-functional collaboration
- Mentoring and code reviews

EXPERIENCE

Software Engineer, progressing into Technical Leadership

Renda Africa | Lagos, Nigeria (Hybrid)

Jul 2023 - Present

Expanded from hands-on engineering into wider ownership across frontend delivery, backend collaboration, architecture reviews, and team guidance.

- Built and evolved operational dashboards, merchant tooling, tracking interfaces, and admin workflows that supported logistics execution and internal platform users.
- Shipped product features with React, Next.js, TypeScript, HTML, and CSS while partnering closely with backend engineers on API contracts, data flows, and release quality.
- Created reusable frontend patterns for forms, workflow-driven screens, and data-heavy product experiences to improve delivery speed and UI consistency.
- Integrated frontend applications with internal and external services, including real-time delivery tracking, provider APIs, and workflow automation systems.
- Contributed to backend and platform capabilities in Go and TypeScript, helping bridge frontend requirements with service behavior, performance, and maintainability.
- Led technical reviews, mentored engineers, and helped drive architecture decisions, delivery planning, and engineering standards across teams.

Senior Full-Stack Engineer

Tidyex | Dallas, USA (Remote)

Nov 2022 - Jun 2025

- Built customer-facing and internal web applications with Next.js, React, TypeScript, Tailwind CSS, Strapi, and Payload CMS for bookings, payments, dashboards, and operational workflows.
- Designed modular page structures and reusable UI sections that made iteration faster across product, marketing, and operations surfaces.
- Integrated frontend experiences with backend services, CMS platforms, and Zoho systems to automate finance and customer operations.
- Improved release confidence by implementing end-to-end test coverage with Cypress and tightening critical user flows.
- Worked across product, operations, and implementation teams to troubleshoot issues quickly and keep interfaces reliable and user-friendly.

Technical Solutions Specialist

Jobberman Nigeria | Lagos, Nigeria

Feb 2021 - Jun 2023

- Built internal tools and customer-facing interfaces with React and Zoho Creator to support recruitment operations and employer workflows.
- Automated applicant tracking, reporting, and hiring workflows using integrations and business logic that reduced manual work for operations teams.
- Delivered analytics and reporting views that improved visibility into hiring pipelines and platform usage.
- Partnered with internal stakeholders to translate business problems into practical, maintainable interfaces and workflow improvements.

Senior Frontend Engineer

CyberME Studio | Riyadh, Saudi Arabia (Remote Contract)

Aug 2022 - Nov 2022

- Led frontend modernization using React and TypeScript with a more modular, component-driven application structure.
- Worked closely with design stakeholders to deliver polished user flows, reusable UI patterns, and stronger visual consistency.
- Improved application responsiveness, accessibility, and maintainability across client-facing experiences.

Software Engineer

Upwork | Remote

Feb 2019 - Feb 2022

- Delivered web applications, APIs, automations, and integrations for international clients across healthcare, e-commerce, and business operations.
- Built with JavaScript, TypeScript, React, Node.js, and related tooling, balancing speed of delivery with maintainable implementation.
- Worked directly with clients to scope requirements, ship features quickly, and support production systems after launch.

CORE SKILLS

React

Next.js

TypeScript

JavaScript

HTML

CSS

Tailwind CSS

Material UI

REST APIs

Node.js

Python

Go

Playwright

Cypress

Git

CI/CD

Docker

AWS

GCP

Responsive Design

Accessibility

Design Systems

Reusable Components

Cross-Browser UI

STRENGTHS

Frontend architecture, component-driven development, backend collaboration, product thinking, code reviews, mentoring, fast iteration, and ownership in remote teams.

SELECTED TOOLS

React, Next.js, TypeScript, Tailwind CSS, Strapi, Payload CMS, Zoho, Go, Node.js, Cypress, Playwright, Docker, AWS, GCP.

EDUCATION

M.Sc. Computer Science

University of Lagos, Lagos

Oct 2024

B.Eng. Materials and Metallurgical Engineering

Federal University of Technology, Owerri

Dec 2017
